CHRISTINA YUAN

FRONT-END DEVELOPER

SUMMARY

Self-teaching programming for 3 years during bachelor's degree in psychology. Currently working as a freelancing front-end developer while completing a Master of IT degree at the University of Melbourne. I offer nuanced and innovative perspectives in problem analysis and solving to my clients, specializing in creating client-centric products.

EXPERIENCE

Front-end Developer

Freelancing | Melbourne, VIC | 2022 – pres.

- Creating visually appealing and responsive websites using JavaScript, HTML and CSS, ensured websites adhered to web standards and were compatible to all devices. This has led to high levels of client satisfaction and repeat business.
- Using advanced Google Sheet function to clean and analyse data and creating visually appealing and informative reports using Google Studio, resulting in significant time and cost savings for clients.
- Developing and implementing customized web forms using Google Apps Script (JavaScript)
- Collaborating with clients through efficient communication to establish website objectives and requirements, resulting in the development of engaging and user-friendly websites that exceeded client expectations and helped to drive online engagement and revenue.

Research Assistant

Chinese Academy of Sciences | 2021 –2023

- Analysed databases of over 1,000 data points through customizing data analysis scripts using R studio, SPSS, and JASP.
- Contributed to the development and maintenance of databases, ensuring data accuracy and accessibility for the research team.
- Created informative and comprehensive visual reports for presentation to senior researchers, helped providing valuable insights and inform decision-making processes in the research project.
- Independently managed and executed research projects, taking ownership of tasks, and delivering results within tight deadlines.
